

RESEARCH ETHICS 3 ECTS, spring 2019

The course is designed primarily for staff members participating in Doctorate Accelerator. However, the course is also open for employees of Turku University of Applied Sciences and Satakunta University of Applied Sciences. The course is also included in the course selection of TUAS Open Studies.

The course is aimed at those working on their doctoral dissertation, but also Master's degree students and RDI staff members can participate.

The training is arranged in accordance with the agreement with Polytechnic University of Valencia and can be recognized as part of doctoral studies. Staff members do not have to pay the Open Studies fee.

The participants will bring their **own laptops** for seminars. The learning platform is Optima.

The Students

- acquaint themselves with the ethical issues concerning research and science
- acquaint themselves with the legislative questions concerning research and science
- know how to justify and critically assess the ethicality of their own research
